Dear Customers,

Notwithstanding the current all-time sound state of the economy, an atmosphere of change is beginning to spread with greater focus placed on the need to improve the preservation of our planet. Without wanting to delve into politics too deeply, this is the policy and responsibility we ourselves not only champion, but also implement in every respect.

Our durable products all bear the distinctive "Made in Germany" seal of quality, originating, as they do, from Germany's Ore Mountains, the very Heart of Toyland. This recognised hallmark is synonymous with short and flexible supply chains and attendant processes, thus contributing further to ecological friendliness.

Pleasant to the touch, wood is natural product combining sustainability with aesthetic appeal. A favoured material to shape and fashion, it responds readily to creative principles of design.

For years on end, the Erzi Company has continued to make use of local wood resources under controlled supervision – now certified and enhanced by the Forest Stewardship Council (FSC) label.

Compatibility with nature's resources is a policy fully endorsed and consistently put into practice by our entire company.

Principles of subsidiarity, whereby members of today's society choose to settle for issues affecting them personally, have a strong bearing on young generations as well as on the environment they inherit from us. Unwilling to wait for global solutions to emerge, we aim at tackling vital issues at the roots, while assuming active responsibility for their practical implementation.

Let's play the game in conformity with Mother Nature – the Erzi Way!

Here's wishing you lots of fun experiencing the pleasure to be derived from the fantastic shapes, colours and exciting new ideas to be discovered in our comprehensive range of products.

NATURALLY

... for our children!

Wood is a natural and regenerative raw material, warm to the touch while creating an ambience of lushness and extravagance. Wood retains its value and durable playing qualities reflecting unsurpassed longevity.

Learning begins from the very first moments of life. This is best supported by providing sustainable high quality playing and learning materials. Distinguished by a broad diversity of natural shapes and colours, our superb range of realistic products serves to stimulate powers of emulation and playing activity from the very outset.

Customer satisfaction and child safety have always been accorded top priority in our corporate policy. Our toys are subject to stringent European and American testing directives, thus complying with highest standards of safety.

MOVEMENT

... the motor of development!

Lack of motivation is one of the chief causes of lethargy experienced amongst children, otherwise ready to respond to every opportunity for physical activity given the right amount of stimulation.

Quite often this is simply due to the want of convincing equipment designed to trigger curiosity and to create lasting joy and satisfaction.

It's high time to discover our vast assortment of inspirational products focused on balance and exercise. Ranging from minor balancing games to fully fledged balancing trails, variety galore prevails to keep boredom at bay!

HEALTHY NUTRITION

... with learning-by-playing simplicity

The stress and hectic pace of everyday life make it increasingly difficult for children to develop awareness for healthy nutrition.

The Erzi Nutrition Pyramid is an illustrative and comprehensible way of imparting to children which foods are tasty and recommendable in larger quantities as distinct from snacks and nibbles that need to be consumed with care and forethought.

OUR ENVIRONMENT ...

... our responsibility!

Today, **environmental protection** and **sustainability** are omnipresent issues of greater relevance than ever before, all subject to rescheduling stipulations at official level.

This also applies to our packaging materials which are made to undergo constant improvement:

- Thus, depending on suitability, we make increasing use of **paper** in lieu of plastic materials
- Our sales packages are meanwhile stuck into place with adhesive sealing dots. We have completely abandoned the practice of shrink-packaging products in plastic.

Erzi packaging materials are chiefly produced in the immediate vicinity, thus enabling us to minimise transport route distances, whilst supporting **regional manufacturers**.

INFO

Our high-grade wooden toys are manufactured exclusively from **FSC-certified materials**. This warrants sustainable forest management, a source of consolation to **ecologically minded consumers!**

The Erzi Underwater World Baby Track takes tiny water lovers for a real dive.

Excitement galore comes to life in the eye of the beholder, all waiting to be discovered behind hidden seaweed and marine life. Pushing aside the starfish, we immerse ourselves into the deep blue sea. A glimpse through the red pane reveals a seabed of surprises – here and there a tiny fish or an anchor is to be seen ...

I CAN DO THAT MYSELF!

The very place for shopping ...

Shopping can be such a fun!

Erzi grocery stores have always been an all-round favourite in nurseries and group play areas. Shops and supermarkets form an essential part of role-playing games as they provide ample space for interaction and communication besides firing the imagination.

By nature, youngsters simply love doing the same things as grown-ups. Unconsciously, they learn to engage with other children and to rely on themselves whilst training their speech abilities, learning to count and to do simple arithmetic.

Shopping and cooking form part of everyday life and are a realistic experience for children who love this land of make-believe, no matter whether in the grocery store, in the market square, at the snack bar or in the kitchen. Equipped with their own shop / kitchen, the kids experience the time of their lives selling, bartering, swapping, preparing and cooking meals just like proper grown-ups. These experiences are assimilated, developed and consolidated in a playful atmosphere.

The Erzi Shop Premium XL scenario can be enacted from any given angle. Additional details, such as conveyor belt, ice compartment, clock and blackboard, make an individual design of the robust shop possible. Adjustable shelves provide an amazing amount of space for accommodating groceries large and small. The dimensions make it suitable for use by several children at a time.

Ding-a-ling – come along in! Play the role of shopkeeper in grand style in your own spacious general store. It's fun to enact everyday shopping situations in this fantastic grocer's shop. Store items can be arranged and set up for realistic trading, selling, bargaining, bartering and lots more. The classical design of the shop with its nostalgic sign add an extra touch of charm to this magical setting. Made in Germany, this exquisite grocer's shop is sturdily built and wear-resistant. The many features facilitate individual array and layout. When setting up the store, the little shopkeeper is given a say in shaping its overall appearance. Where is the shop entrance to go, on the left or on the right? Are the drawers to be arranged on the shelf on one side or on both? Where am I going to hang the doorbell? Shelving spaces, drawer units and hooks simply beg to be stocked with grocery items – large and small – all ready for the customer! The role-playing quality serves to train the child's speech along with intellectual and social development. In addition, the ergonomically adapted size of the shops provides a sound basis for an appealing form of interactivity, whilst promoting motor skills and abilities.

SWEETS FOR MY SWEET!

... delicacies devoid of calories!

... so sweet and cute:

All children are born with a sweet tooth – an accepted fact of life and – quite understandably – an indispensable role-playing game!

We don't need to be told twice about that, do we? So without further ado let's set about creating our own sugary-sweet assortment – all carved from local beech and decorated with certified cool-coloured materials!

1 apple juice, 1 bottle of water, 1 milk, 1 strawberry
 yoghurt, 1 cupcake, 1 piece of an apple, 1 banana,
 1 carrot, 1 piece of a tomato, 1 slice of toast, 1 slice of
 cheese, 1 Viennese sausage

Even one-year old children can already learn the first
 food items with these selected children's toy shop
 food products. They can be taken, given, recognised
 and also named. The children will soon want to re-
 enact the buying and selling of groceries.

Twelve different kinds of food made of wood to play
 can be placed on small shelves or into baskets or bags
 and removed again. Children re-enact daily situations
 and thus learn to deal with different shapes and
 sizes. All parts in this assortment are suitable for the
 youngest children, they do not contain small parts that
 can be swallowed or inhaled. All colours are resistant
 to saliva and perspiration.

All Erzi products undergo very strict controls allowing
 our children to play safely!

Our cutting sets are best for role-playing games & fine motor skills.

4 28203 Cheeseburger Cutting Set

length: 19 cm width: 15,2 cm
height: 6,3 cm Ø:
weight: 380 g

content: 6 wooden pieces

material: beech, coloured laquered

Like grown-ups, children delight in cutting up, cooking and serving meals. Twice as much fun is derived from our popular cheeseburger. The cutting board and knife are useful aids for preparing health-giving vegetables. The burger can be topped according to individual taste. This cutting set serves to promote the training of fine motor skills while the various options for combination serve to stimulate the child's imagination and powers of creativity.

Wood-carved assortment, colour-painted made up as follows: 1 cutting board, 1 knife, 1 portionable hamburger (3 portions), 1 slice of cheese with Hook and loop fastener, 1 portionable tomato (3 portions), 1 portionable cucumber (3 portions)

Warning! Not suitable for children under 36 months. Choking and suffocation hazard! Contains small parts and balls.

length: 19 cm width: 15,2 cm
height: 6,3 cm Ø:
weight: 456 g

content: 9 wooden pieces

material: beech, coloured laquered

This role-playing activity involves children in preparing supper as part of everyday family life. The various ingredients such as salami, cheese, egg and slices of tomato are cut up and prepared on the cutting board using the big knife and afterwards served in style.

This cutting set serves to promote the training of fine motor skills while the various options for combination serve to stimulate the child's imagination and powers of creativity.

Wood-carved assortment, colour-painted made up as follows: 1 cutting board, 1 knife, 2 slices of bread for cutting up, 1 cheese for cutting up (3 chunks), 1 salami for cutting up (3 slices), 2 pieces of tomato for cutting up, 1 egg for cutting up (2 halves)

length: 19 cm width: 15,2 cm
height: 6,3 cm Ø:
weight: 410 g

content: 6 wooden pieces

material: beech, coloured laquered

Children take an interest in everything grown-ups do. This includes cutting up and preparing meals in the kitchen.

Colourful wooden replicas of delicious fruit, a red-handled knife and a chopping board are the right requisites for simulating daily kitchen routines.

This cutting-up set serves to promote fine motor skills in a playful manner while also stimulating the child's imagination and creativity.

height: 8,3 cm Ø:
weight: 3,09 kg
content: 1 game board, 5 rotating ghosts (attachable with a turn- and snap-lock fastener), 25 stacking ghosts, wall mount fixture, fastening material, playing and mounting instructions
material: birch plywood, laquered; beech, coloured laquered
This role-play is suitable for all ages. The ghosts appear in different, luminous colours with funny faces. When the ghosts are stacked, the game becomes suspenseful: Which ghost will make the stack fall?! If the Erzi Ghost Board is mounted vertically, the 30 ghosts in total can be stacked the highest.
For concentration and strategy, children can achieve great success with this variant. If the stack falls, however, a stacking ghost remains standing only rarely. Due to different stacking heights, small and older children can play with the ghost board at the same time. The slim form makes it possible to integrate the ghost board into small playing areas as well. In the crosswise format, the ghost board is particularly suited for small children. Up to 5 children next to each other can play with the ghosts or build small ghost stacks. Here, the storage slots can also be used as grab handles. Arranging the ghosts in the storage slots is a good way to make cleaning up fun.

material: beech, coloured laquered; birch plywood,
coloured printed

Cake Tower is a sweet dice game for 2-3 players,
ages 4 and up. The game board is a cake plate and the
cake pieces are the the playing pieces. Here, the play-
ers can collect their ingredients for their own stacking
cake. Of course, each baker – young or old – will want
to layer the most beautiful cake. But be careful, there
are also three fields that will leave the bakers empty-
handed. When all the ingredients are gone, the cakes
can be admired!

A strategic monster game for 1 to 4 players aged five
years upwards. The four cute little devils are striving
to escape out of the green labyrinth. The children are
anxious to help them find the quickest way out. This is
not as easy as it sounds as their team mates can ob-

 1 cork plug; 3 marbles in wood and glass

material: beech, coloured laquered; birch plywood

"The goal is the journey itself". This is a playful method for
 children to learn by dint of hard work how rewarding the
 whole game can really be when the goal is finally reached.

Running water or rolling marbles proceed on a downward
 course. No matter whether used in summer or in winter,
 indoors or out in the sandpit, children will derive fun and
 pleasure from this product everywhere and at any time of
 the year. A closer look at the way the Marble Course works
 suffices to disclose its true potential. A small dam brings
 the marble to a halt, causing the water to overflow. Small
 holes at the sides are ideally suitable for inserting small
 sticks or flowers which serve to decorate the route while
 enhancing creativity. A hole can make the marble or the
 water disappear and set it in motion again at another level.

A supplied plug (cork) serves to complement this feature.
 Warning! Not suitable for children under 36 months. Choking and suffoca-
 tion hazard! Contains small parts and balls.

HANDS-ON ...

... arithmetic & geometry!

Now simplified at long last!

To many people, mathematics is a fully abstract term, often quite hard to grasp without means of illustration. The educational game Fractions of a Whole not only conveys a visual impression of fractions, but also allows kiddies to gain hands-on experience!

INFO

The system comprises three principal components:

- Each part (whole, half, etc.) is designed as one self-contained solid unit instead of being made up of two pieces stuck together. This enables the formation to be visualized as a whole. All components are of the same colour (i.e. wood left in its natural state) so that they are easily recognizable as forming one single whole.
- Each piece is accorded its own space on the board. If a cube needs to be formed from four quarters, the child removes each quarter from its tray and places it in the appropriate spot.

Educational Game Fractions of a Whole

length:..... 28 cm width:..... 18,5 cm
height:..... 19 cm Ø:..... -
weight:..... 1,53 kg

content: 19 parts (4 base plates with hollows for cubes and quads, 1 large cube) – to form a whole, 2 halves, 4 quarters and 8 eighths)

material: beech

Constructed from solid beech, this unique system is designed to teach children aged three years upwards the various parts making up a whole number. While playing with the three-dimensional pieces i.e. cubes, kiddies learn to distinguish whole shapes and their individual constituents such as halves, quarters, eighths, etc. When advancing to higher primary school grades, they then learn how to express these shapes abstractly in the form of fractions.

This direct learning-by-playing method teaches youngsters the number of different possibilities of forming a cube, say from two halves, one half and four eighths, two quarters and one half, etc.

This educational game is highly recommendable for children with special needs.

 height: 5 cm Ø:
 weight: 840 g

content: 28 parts (6 elementary geometric shapes (cube, quad, sphere, pyramid, cone and cylinder), 5 curved surfaced areas (without ball).

material: beech, oiled

This didactic set helps children to understand basic geometrical principles. By seeing, holding and playing children learn the meaning of bodies, surfaces, shapes, symmetry and relations. It's made of solid beechwood.

Solids are 11 or 7 cm high and 7 cm wide/in diameter.

The children learn the basic geometric principles through play. They learn the meaning of shapes, size, bodies and surfaces, symmetry and harmony. Children attribute relevant properties to geometric bodies by touching them. Didactic value is upgraded with machining geometric faces for better understanding of surfaces, edges and corners.

Size cube: 7x7x7 cm

Figure of Eight. This is used primarily as a means for promoting concentration as well as for training hand motor skills and touch sensitivity. The interior ball guides impart an additional positive effect to motor exercising skills applied to the arm and shoulder regions and challenges mobility at different levels for both children and adults. The two- and three-dimensional concept for this product is clearly illustrated in an exercise booklet supplied with the product. The two steel balls supplied with the product are always within grip as a result of the concealed magnetic ball mounts and can be integrated into this coordination-focused game, either individually or combined. An Erzi concentration game constructed of coated laminated birch.

INFO

Erzi Trackboards are fun to play with and combine enjoyment with bodily exercise. The balancing disc provides children and adults with an anti-slip tread support whilst they direct the balls along the track to the finish. The flexible anti-slip seesaw base fitted to the underside of the trackboard is designed as a corresponding means of safety for this balancing game. The integrated carrying handle also serves as a ball mount.

 The Maxi Disc is the largest and most highly complex balancing game ever to be developed by Erzi. It enables children to engage in multifaceted exercising activity. Enormous potential is provided – from leisurely soloing right through to a communicative duet, trio and quattro. A base plate for fitting underneath the disc prevents impressions from forming on the flooring material. Three handling recesses slotted into the circuit contouring not only facilitate transportation of the playing surface, but also provide a secure grip when performing hand-balancing games involving at least two players. The Erzi balance board is scratchproof and decorated, the print showing an amusing snail race with six snail contestants matching the six gaily coloured balls. On the smaller racing circuits senior and baby snails are to be found contesting for the winning score. Replacement balls: 46301

INFO

Step-by-step the SensoPath guides the user through the world of sensory and motor functions. A balancing act is the result, combined with a feeling of poise, a comparison of one's own physical abilities and a great deal more. One foot is deliberately placed in front of the other, stimulating a depth-sensory effect to weak feet. Resorting to a variety of different materials, surfaces and motor challenges serves to train bodily perceptions. An adult-sized foot (size 43/9) is taken as a basis, this making the SensoPath product suitable for all age groups. All materials used are sweat- and saliva-proof, and are tested for toxics or harmful substances. SensoPath units are ideal foot trainers for games, sports and therapeutic applications.

Team Tower

length: 12 cm width: 24 cm
height: 26 cm weight: 3,31 kg
content: 6 wooden blocks, 1 frame with cord holder,
12 cords 2 x 2m, 1 bag, 1 manual
material: beech, polypropylene

This game can be played without much preparation by any number of children from 2 to 24. The Team Tower set caters for loads of fun both outdoors and indoors, while cultivating motor skills and coordination. Setting up and completing the tower is a team-minded and communicative activity. Describing actions and situations within the group serves to promote individual speech development combined with endurance in attaining the set target. Each member of the team experiences an increasing feeling of self-awareness and self-confidence in playing the game. Size tower: 19 x 5,5 x 5,5 cm

Team Ball Track

length:..... 44 cm width:..... 38 cm
 height:..... 6 cm Ø:.....
 weight:..... 3,71 kg
 content: 8 wooden ball tracks, 2 wooden balls,
 1 carrying bag, 1 manual
 material: beech, polypropylene

This set of sturdy wooden ball tracks will transform a group into a whole team! When joining forces, all players work hand-in-hand to assemble a long track. The aim is to keep the wooden balls rolling progressively from one point to the next. This calls for pronounced skill and the powers of concentration to react quickly. It also requires constant interaction on the part of the players to prevent the balls from falling on to the floor. Different levels of difficulty are also possible by reducing the tracks. Alternatively players can compete in two opposing teams.

size single track: 43 x 7 x 3,5 cm
 Warning! Not suitable for children under 36 months. Choking hazard!
 Contains small balls.

INFO

Children love to hide and dress up. Panto-Mimo combines these two penchants and provides ample opportunity for children to play. Handicapped or not, youngsters can rely fully on their own senses when joining in the Panto-Mimo game. Panto-Mimo needs no particular instruction. Allowing children to play and move about at their own leisure encourages and challenges self-confidence, sense of balance, orientation skills, concentration and coordination. The super Panto-Mimo is a real challenge especially with two children engaged in interaction with one another.

Balancing Board Branches

46381

length:..... 190 cm width:..... 24 cm
 height:..... 9 cm weight:..... 9 kg
 material: birch plywood, nature and coloured laquered
 In designing the branches, full focus has been on NATURE. The spruce branch stubs firmly attached to the balancing board have been left in their natural untreated state and impart that true, unfeigned feeling of wood under the feet. In addition to right-left coordination training, this serves to exercise the medial and lateral arches of the foot.

Balancing Board Forest-floor

46382

length:..... 190 cm width:..... 24 cm
 height:..... 9 cm weight:..... 7 kg
 material: birch plywood, laquered
 This balancing board calls for concentration! 27 differently sized holes are filled with large and small PU-foam balls. Take a wrong step and the ball will fall out of its hole! Involving walking on PU-foam balls, Forest Floor provides an excellent opportunity to exercise safe walking on uneven surfaces. The foam balls are washable.

Balancing Board Mixed Materials

46383

length:..... 190 cm width:..... 24 cm
 height:..... 9 cm weight:..... 7 kg
 material: birch plywood, laquered
 What does material science have to do with balancing? The answer lies in five different haptic sensory experiences: smooth or rough, warm or cold, hard or soft, shiny or dull surfaces. The various materials can be explored using the eyes, hands and feet.
 Materials: sandpaper, metal, artificial turf, cork, plastic mirror.

Balancing Board Zig-Zag Path

length:..... 190 cm width:..... 24 cm
 height:..... 9 cm weight:..... 7,66 kg
 material: birch plywood, laquered; polypropylen
 This balancing board features a groovy tight rope arrangement forming a zig-zag path. This is intended to improve the child's balancing skills in two ways. One involves balancing back and forth on the tight rope. The other method is to hop from one gap to the next – either on one foot or using both feet.

Rocky Rocker

length:..... 42 cm width:..... 28,5 cm
height:..... 17 cm Ø:.....
weight:..... 1,8 kg

material: birch plywood, laquered
The Rocky Rocker is a game and sport product which can be used for young and old, as single product or as connecting point between two Erzi balancing boards. It corresponds to all current security standards and guidelines and offers nevertheless a design without any screws or nails. The Rocky Rocker is a natural product with love to the details and varied challenges to the exercise capacities of the children. The product can be used as stool and sitting or standing balancing seesaw. The seesaw demands from the user teamwork, balance, consideration, patience and coordination.

Rocky Rocker is a playing and sports device that can be used as a stool, a seat and a rock in either kneeling or standing position. In the sitting and kneeling position, the user may hold onto the rods. When placing an Erzi balancing board in the middle of Rocky rocker, it becomes a rocker for two children with numerous game variations (such as marble track). The rocker is great for walking (not running) over it. Placing a balancing board with one end on the Rocky Rocker and hooking this in forms a fixed ramp catering for a variety of different applications. In most cases, however, Rocky Rocker can be used as a connection of two Erzi balancing boards. The interaction of the connected boards requires and encourages coordination and concentration skills. In this variant, both Erzi balancing boards should be suspended by the appropriate rods.

Dream Cave Mini

depth: 122,6 cm width: 131,2 cm
height: 102,3 cm Ø: -
weight: 13 kg

material: birch plywood, laquered; Trevira CS (fabric)
The classic version of the cave employed in nursery schools is now cable of being put to practical use in children's rooms. The space-economising dimensions facilitate erecting the cave in children's playrooms or smaller group spaces for developing sensory experiences: SIGHT, HEARING, SMELL, TOUCH and DREAM. Regardless of whether it is used for relaxation, recitation, contemplation, decoration, playing or just day-dreaming, this cave itself is an absolute dream. It can be personalised or individually designed and used for focusing on sensory experiences.
Scope of delivery: 1 Dream Cave, 1 fabric roof

Willow Hut

length: 115 cm width: 75 cm
 height: 125 cm Ø:
 weight: 9,7 kg

material: willow

Willow huts are places of retreat, great hiding places and inspire imaginative role play. They fit beautifully into the natural environment, may be covered with climbing plants, „smeared“ with loam or colourfully painted. The willow cottage has a wheelarch doorway, three little windows and an opening in the roof.
 No toy! Decoration!
